

## THE PEOPLE AND THEIR SCHOOL

The charter school belongs to the people. The people exercise their proprietorship through the elective process at the national, state, and local levels. They elect state and federal representatives who establish the framework of law within which the schools operate. The people elect the Board of Directors to represent them to determine the school educational policy.

The board is mindful that the people are the ultimate governors of public education and that the board is directly accountable to the people. The board also believes that accountability is a shared responsibility involving students, teachers, administrators, and the people themselves.
