

FACILITIES DEVELOPMENT PRIORITY OBJECTIVES

As the Board seeks to overcome deficiencies in its physical plant, it will strive to provide new and remodeled facilities that will offer the best possible physical environment for learning and teaching.

The Board aims specifically toward:

- A. Renovations that will accommodate and facilitate those new organizational and instructional patterns that support the school's educational philosophy and instructional goals;
- B. Meeting all safety requirements through remodeling;
- C. Providing such building renovations as needed to meet requirements on the availability of public school facilities to handicapped persons; and
- D. Building design and construction that will lend to low maintenance costs and the conservation of energy. These two factors will also be given special consideration in the renovation of the building.

Decisions pertaining to educational specifications of new buildings and those undergoing extensive remodeling will be developed only after the viewpoints of teachers, students, and parents have been sought.
