

PROFESSIONAL STAFF ASSIGNMENTS AND TRANSFERS

The basic consideration in the assignment of professional personnel will be the needs of students and the instructional program.

Therefore, the policy of the board is that personnel be assigned on the basis of their qualifications, the needs of the school, and their expressed desires. When it is not possible to meet all of these conditions, an employee will be assigned first in accordance with school needs – where the administration feels the employee is most qualified to serve, and second, regarding the preference of the employee.

It is the responsibility of the Board of Directors to assure that all schools are well staffed with effective teachers.

A reassignment, or special assignment may be requested by an employee, and will be given due consideration in accordance with the provisions of this policy.
