### Responsibilities discussed

- Revisited the skills and experiences needed on the board
- Created a short-term recruitment strategy list of future possible board/committee members
- Began direct contact with the public to help fill the needed openings
- Discussed the effectiveness of recent board meetings and developed plans to consolidate the discussions in a more timely manner
- Travis told us of board training videos that will be available for the full board to review. The committee felt this would be a good way to start each meeting.
